

# FAST FACTS

- ✓ Comes fold flat, for easy storage
- ✓ No waste contract needed
- ✓ Easy to assemble and dispose - no training needed
- ✓ Built-in modesty panel - for discreet disposal of content
- ✓ Built in **Bio-matt™** to absorb any additional liquids
- ✓ Built-in twist lock – secures the bin when not in use

The Hygiene+ is PE coated, water proof & leak proof – this means you don't have to worry about any fluid getting in or out. We also supply stainless steel floor stands which elevate the bin slightly and protect from movement on the floor.

# HYGIENE+ SANITARY BIN

## NO WASTE CONTRACT NEEDED

The Hygiene+ Bio-bin® is a disposable, eco-friendly, alternative to traditional plastic and metal sanitary waste bins. Plastic or metal bins in your institution will often require a costly waste supplier contract – but not with the Hygiene+! Once full, simply permanently seal and place into your outside bin.

## DO I NEED TO PROVIDE A BIN?

In the Workplace (Health, Safety and Welfare) Regulations 1992 paragraphs 20 and 21: it says that every company has "Suitable and sufficient sanitary conveniences shall be provided at readily accessible places".

This means companies should always have something in place for any female staff members or visitors. The Hygiene+ Bio-bin® is ideal for this. It has a built in modesty panel allowing waste to be placed in the bin discreetly as opposed to a pedal bin which may bring the contents into view causing embarrassment or upset.

## HOW LONG WILL THE HYGIENE+ LAST?

The Hygiene+ Bio-bin® can be left in place for up to three months at a time without issue. As often happens in small companies, some months you are paying for a totally empty bin to be collected.

The Hygiene+ Bio-bins have no shelf life and come in handy packs of 10 – folded flat for easy storage. They can be replaced as and when needed. If you are unsure if the Hygiene+ is for you, why not try a single bin and see how it can fit into your work environment?

## WILL THE BIN LEAK?

Our special waterproof coating on all of our bins prevents any leakage, coupled with our Bio-matt™ means that our bins are leak proof. Giving you peace of mind for you & your organisation.

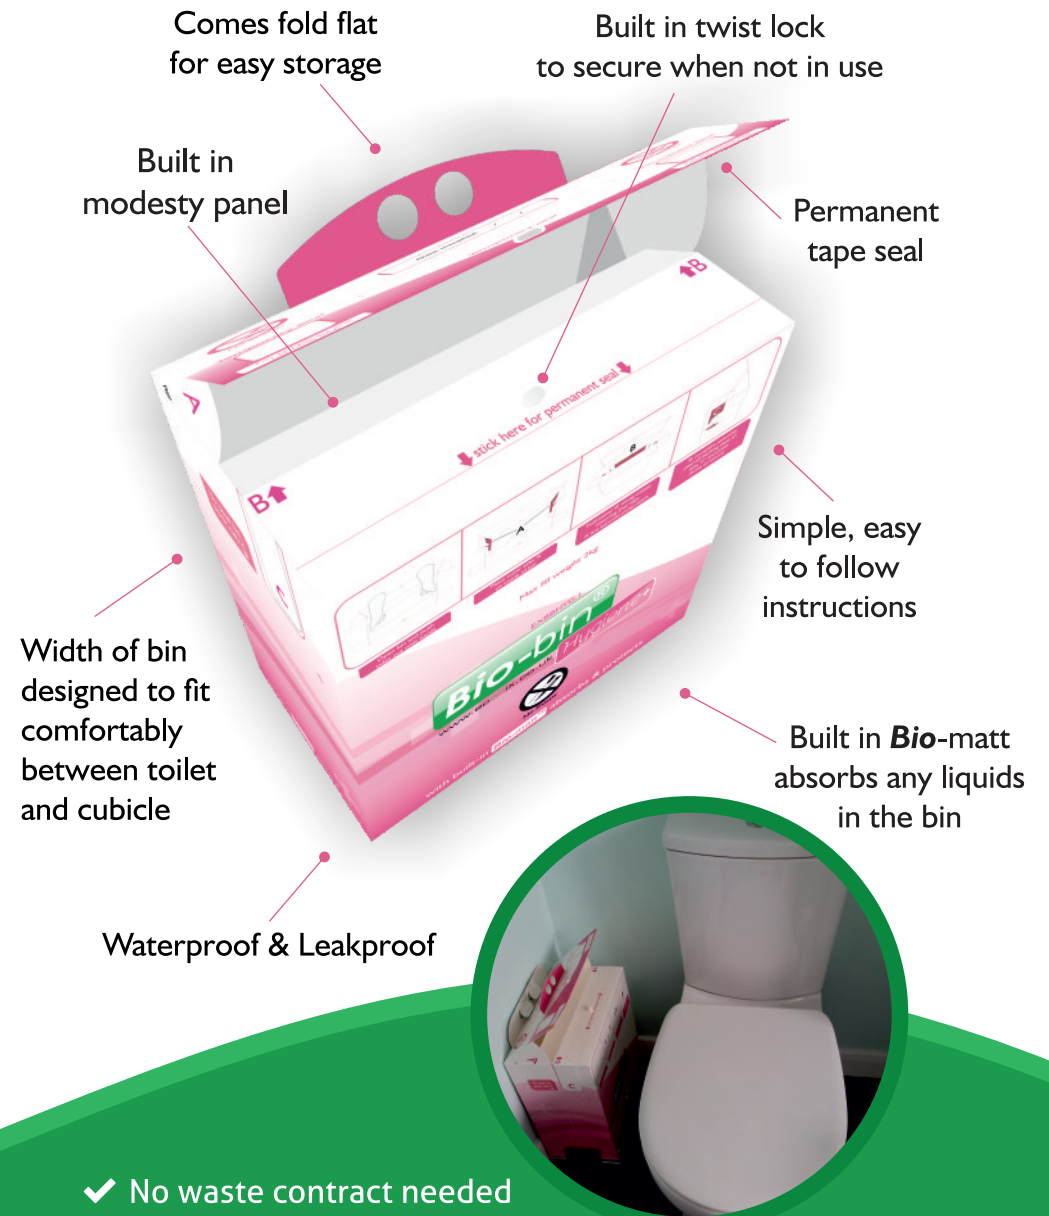

## DO I HAVE TO TELL MY BIN MEN?

With the Hygiene+, you do not need a specific waste transfer note for your sanitary waste bins. The completion of a waste transfer note is completed once a year with your waste management company; you should however let them know that you have a small amount of hygiene waste in your collections but that this is less than 7KG per collection.

Businesses do not need to segregate waste under 7KG – it is still classed as; 20 03 01 Black bin waste.

For amounts 7KG+ for larger establishments – waste is reclassified as; 20 01 99 Offensive waste
